

Ladies & Gentlemen: I rely on XM Radio for ALL of my radio listening. We travel throughout the U.S. and can receive reliable reception of traffic reports in the major cities as well as weather reports. I request that you leave XM Radio alone and let them provide a service we have needed in the U.S. for a long time. I was so impressed with XM Radio that I installed it in all of my transportation vehicles. Close out the attacks that are being made on XM Radio. Bob Madison
